

NDA 215310/S-003

**SUPPLEMENT APPROVAL/
FULFILLMENT OF POSTMARKETING
REQUIREMENTS**

Takeda Pharmaceuticals USA, Inc.
Attention: Jennifer Tunncliffe
Associate Director, Global Regulatory Affairs
40 Landsdowne Street
Cambridge, MA 02139

Dear Jennifer Tunncliffe:

Please refer to your supplemental new drug application (sNDA) dated and received March 24, 2023, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for EXKIVITY (mobocertinib) capsule.

This Prior Approval sNDA provides for revision of the DOSAGE AND ADMINISTRATION section (addition of subsections *2.1 Recommended Evaluation and Testing Before Initiating EXKIVITY*; and *2.6 Dosage Modifications for Patients with Severe Renal Impairment*) of the US Prescribing Information (USPI) labeling; and updates to the USE IN SPECIFIC POPULATIONS (8.6 Renal Impairment and 8.7 Hepatic Impairment), and CLINICAL PHARMACOLOGY (12.3 Pharmacokinetics: Distribution, Specific Populations) sections, based on supportive data from clinical pharmacology studies submitted to fulfill post-marketing requirements 4148-4 and 4148-5 of the September 15, 2021 Accelerated Approval of EXKIVITY.

Updates to the Patient Insert labeling were also made to align with the USPI, in addition to minor editorial changes throughout.

APPROVAL & LABELING

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

WAIVER OF ½ PAGE LENGTH REQUIREMENT FOR HIGHLIGHTS

Please note that we have previously granted a waiver of the requirements of 21 CFR 201.57(d)(8) regarding the length of Highlights of Prescribing Information.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at FDA.gov.¹ Content of labeling must be identical to the enclosed labeling (text for the Prescribing Information and Patient Package Insert), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.²

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients (which includes new salts and new fixed combinations), new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your application, you are exempt from this requirement.

FULFILLMENT OF POSTMARKETING REQUIREMENTS

We have received your submissions dated December 13, 2022, and March 24, 2023, containing the final reports for the following postmarketing requirements listed in the September 15, 2021, approval letter.

¹ <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>

² We update guidances periodically. For the most recent version of a guidance, check the FDA Guidance Documents Database <https://www.fda.gov/RegulatoryInformation/Guidances/default.htm>.

- 4148-4 Conduct a renal impairment clinical trial to evaluate the pharmacokinetics and safety of mobocertinib in patients with normal renal function and patients with severe renal impairment. Design and conduct the trial in accordance with the FDA Draft Guidance for Industry titled: "Pharmacokinetics in Patients with Impaired Renal Function: Study Design, Data Analysis, and Impact on Dosing."
- 4148-5 Conduct a hepatic impairment clinical trial to evaluate the pharmacokinetics and safety of mobocertinib in patients with normal hepatic function and patients with moderate and severe hepatic impairment. Design and conduct the trial in accordance with the FDA Guidance for Industry titled: "Pharmacokinetics in Patients with Impaired Hepatic Function: Study Design, Data Analysis, and Impact on Dosing and Labeling."

We have reviewed your submissions and conclude that the above requirements were fulfilled.

We remind you that there are postmarketing requirements and a postmarketing commitment listed in the September 15, 2021, approval letter that are still open.

We remind you that accelerated approval PMR 4148-1 listed in the September 15, 2021, approval letter is still open. Pursuant to 21 CFR 314.510 (Subpart H), continued approval of the drug is contingent upon verification and description of clinical benefit and completion of the clinical trial for PMR 4148-1.

PATENT LISTING REQUIREMENTS

Pursuant to 21 CFR 314.53(d)(2) and 314.70(f), certain changes to an approved NDA submitted in a supplement require you to submit patent information for listing in the Orange Book upon approval of the supplement. You must submit the patent information required by 21 CFR 314.53(d)(2)(i)(A) through (C) and 314.53(d)(2)(ii)(A) and (C), as applicable, to FDA on Form FDA 3542 within 30 days after the date of approval of the supplement for the patent information to be timely filed (see 21 CFR 314.53(c)(2)(ii)). You also must ensure that any changes to your approved NDA that require the submission of a request to remove patent information from the Orange Book are submitted to FDA at the time of approval of the supplement pursuant to 21 CFR 314.53(d)(2)(ii)(B) and 314.53(f)(2)(iv).

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, contact Jacqueline Glen, Regulatory Health Project Manager, at Jacqueline.Glen@fda.hhs.gov.

Sincerely,
